9864700584

Motivated and detail-oriented Full-Stack Developer with hands-on experience in building scalable applications using the MERN stack and Flutter with a strong foundation in REST API development, clean architecture, and mobile UI design.

Experience

Junior Full-stack Developer, Wisdom Technologies Pvt.Ltd – Kathmandu, Nepal

June 2025 – Present

- Built scalable REST APIs using Node.js, Express, and MongoDB
- Applied clean architecture with strict separation of concerns (Controller/Service/Repository)
- Implemented role-based access, JWT auth, and dynamic permission control
- Developed custom validation, centralized error handling, and environment-based configs
- Integrated Nodemailer, rate limiting, logging, and secure token workflows
- Utilized Mongoose for schema design, enums, and transaction-based data integrity
- Followed modular coding principles, async workflows, and production-ready coding standards
- Worked with webhooks, payment integration, multi-tenant system.

Flutter Developer Intern, Discounts Pvt. Ltd. – Lalitpur, Nepal

Jan 2024 – Sept 2024

- Translated Figma designs into responsive UI components, ensuring a seamless and visually appealing user experience.
- Integrated and managed RESTful APIs, improving data flow and system efficiency while reducing response times.
- Collaborated with backend developers to refine API structures, optimize calls, and minimize system load.
- Debugged and resolved UI/UX issues, enhancing app stability and performance across multiple devices.
- Conducted rigorous testing and troubleshooting to ensure a smooth user experience, reducing app crashes and performance bottlenecks.

Projects

DressLend (Dress Rental Web Application)

<https://github.com/Harshiikaa/dresslend>

- Developed a MERN-stack platform for dress rentals, promoting sustainable fashion with a user-friendly browsing and booking experience.

TribalTrove (Handicraft Marketplace)

<https://github.com/Harshiikaa/TribalTroveWeb>

- Built a web platform connecting artisans directly to buyers, assisting in secure payment integration and streamlining order management.

TribalTrove Mobile App

<https://github.com/Harshiikaa/TribalTroveMobileApp>

- Built a mobile app platform connecting artisans directly to buyers, assisting in secure payment integration and streamlining order management.

Hamro Pasal (E-Commerce App)

https://github.com/Harshiikaa/Hamro_Pasal

- Designed and developed a Flutter-based e-commerce app for small businesses, enhancing multi-platform compatibility and improving overall user experience.

AIपाले (Intruder Detection System)

<https://github.com/prasnaaryal/intruderdetection>

- Contributed to an AI-powered intruder detection system using OpenCV, assisting in real-time motion tracking, video processing, and alert implementation with additional smart home features.

Skills

Languages: Java, JavaScript, Dart, Python

Technologies & Tools: MERN Stack (MongoDb, Express.js, React, Node.js), MySQL, Flutter, Git, Agile, Figma, Tableau

Education

Bachelors – Bachelors of (Hons) in Computing - (Softwarica College of IT and E-Commerce)

Nov 2024
